SUPERTECH R BOOT

/// RACING / PERFORMANCE RIDING / PRODUCED SIZES: 39-48 EUR / CORRESPONDING TO: 6-12.5 US

Durable and technical microfiber upper construction offering superb levels of flexibility.

Front flex area is constructed with a redesigned soft TPU over-injected on breathable mesh with a shaped relief for improved abrasion resistance and natural forward and back movements.

Flexible accordion microfiber stretch at Achilles allows natural movement.

Top gaiter follows leg contour and is made of flexible high-grade synthetic leather reinforced with PU for maintaining shape.

Full length suede microfiber panel on inner side of the

boot provides a smooth surface for excellent grip and feel against the bike and protects from abrasion and heat.

Flexible, lightweight toe shifter allows feel for changing gears.

Strategically positioned ventilation in heel and shin TPU guides air through the boot on the vented version.

Extremely protective, flexible and comfortable with excellent aerodynamics.

Separate internal bio-mechanical ankle brace works with the outer structure of the boot to form a protective system allowing full and free movement of the foot, ankle and leg.

New external TPU shin protection wraps around to outer calf and is engineered to spread and dissipate impact energy across the entire surface while remaining compact.

Replacement clip-on shin-slider improves protection, while the vented section promote asirflow into the boot.

Integrated replaceable co-injected TPU/aluminum toe slider features new easy screw fixing concept provides feel and protects the outer toe box structure from abrasion.

Replaceable nylon heel plate slider protects from impact and reduces friction in the event of a crash.

Outside entry/exit has stretch accordion panel for a close fit and ease of entrance and removal.

Zip mounted on soft TPU stretch panel gives easy closure with excellent fit – additional TPU zip slider reduces friction in the event of a crash.

Hook and loop tab lock the zip pull closed, keeping it flat and secure.

Micro adjustable redesign ratchet top closure stows tab end.

Redesigned lightweight rubber compound sole offers excellent grip and feel and allows for natural flex as the rider changes position and pressure on the foot-peg.

Supertech R boot is CE-certified to EN 13634:2010.

Separate internal bio-mechanical ankle brace works with the outer structure of the boot to form a protective system allowing full and free movement of the foot, ankle and leg.

New research has produced re-profiled double-hinged inner and outer torsion bars to give greater impact protection of the ankle and progressively absorb flex and rotation stress, reducing pressure and hyper-extension injury to the lower leg joints.

The inner ankle brace is constructed with a fiberglass reinforced polyamide compound and ergonomically designed closed cell padding to give protection and comfort.

Alpinestars exclusive lasting process has developed the Supertech R's fit and feel characteristics to an even greater level, ensuring the inner structure allows the rider maximum feedback from the bike.

Specially developed polyamide compound moldings give impact protection while retaining the ease of natural skeletal movement.

Main upper material constructed from breathable mesh and microfiber chassis supported by an inner ankle soft padding for maximum comfort

Metal eyelet closure ensures rapid and accurate entry and exit and with micro-adjustability, ensures perfect fitting and security.

Removable anatomic footbed is sculpted for precise fit.

SMX PLUS BOOT

//// RACING / PERFORMANCE RIDING / PRODUCED SIZES: 36-48 EUR / CORRESPONDING TO: 3.5-12.5 US

Contoured high modulus shin plate protector gives superior impact and abrasion resistance.

Alpinestars unique Multi-Link Control system provides advanced external protection and support for ankle articulation, limiting hyper-torsion, hyper-extension and hyper-flexion as well as providing Achilles and ankle impact protection.

Wide heel counter with lateral ventilation extends to the ankle and is combined with a shock absorbing padded insert and self-molding ankle protectors.

Integrated replaceable bi-injected TPU slider features new easy screw fixing concept.

Replaceable heel slider and external side heel slider are positioned to dissipate and absorb shock and promote sliding during an accident. Large front and rear asymmetrical accordion zones are optimized to maximize flexibility for maximum comfort and improved safety.

Advanced microfiber upper construction for

lightweight high performance protection.

Inner instep made with Dupont™ Kevlar® with metal eyelet lacing closure and a unique lateral zipper offer precise and secure fitting.

Elastic mounted zipper gives easy closure with excellent fit. Hook and loop tab locks the zip pull closed, keeping it flat and secure.

Micro adjustable ratchet buckle closure on the calf features a hidden strap for security.

Advanced synthetic forefoot lining, laminated with open cell foam for shock absorption and highly breathable lining in ankle and leg areas for comfort.

Durable sole, designed for improved riding feel, features evenly textured rubber for consistent grip, with aqua dynamic grooves to drain the water efficiently.

Alpinestars anatomical and replaceable countered EVA footbed provides arch support and forefoot pedal feeling. SMX Plus boot is CE-certified to EN 13634:2010.

//// PERFORMANCE RIDING / SIZE: PRODUCED SIZES: 36-50 EUR / CORRESPONDING TO: 3.5-14 US

SPORT FIT

Newly designed boot upper incorporates innovative front, rear bellow and rear calf zones for superior levels of flexibility. The upper is constructed from microfiber for durability and abrasion resistance.

Ergonomic last for forefoot streamlining to enable greater control of the bike's controls and for superior, wide-ranging foot profile, fit and comfort.

Alpinestars innovative TPU lateral ankle brace protection provides a biomechanical support between lateral top calf/shin and ankle and offers improved

structural integrity, protection against impact shocks, repeated abrasion resistance and flex support.

Air vents on the heel counter and shin plate plus breathable mesh inserts improve comfort and reduce fatigue on short and long rides.

High modulus TPU injected shin guard, calf protector, heel counter, shift pad, ankle brace and toe slider for improved shock protection and durability.

Double density ankle protector on medial side layered under the upper offers protective performance in key area.

Innovative instep and Achilles accordion flex zone construction for superior comfort, extension, control and support.

Internal insole with the shank reinforcement integrated for support to the arch area and foot protection.

Medial side entry opening/closure system features elastic-mounted zipper with wide hook and loop closure for flexibility and secure fit. The aperture opening is large to promote easier in/out.

Internal toe box protection is layered under the upper

for durability, improved feel and performance.

Breathable textile interior lining features anti-sliding microfiber suede reinforcement on heel area help keep foot in position while riding.

New, removable anatomic footbed includes EVA and Lycra® for performance, comfort and support.

Alpinestars new and exclusive compound rubber sole promotes improved feel and grip, water dispersion and durability.

TOUCAN GORE-TEX BOOT

/// ADVENTURE TOURING / LIGHT OFF-ROAD / SIZE: PRODUCED SIZES: 7-13 US / CORRESPONDING TO: 40.5-48 EUR

ADVENTURE TOURING FIT

Innovative lateral ankle protection with supporting biomechanical link between the upper boot and the lower foot structure provides support and control.

Medial side structure is contoured for perfect fit and flexibility fit, with reinforced polymer and rubber sculpturing for grip and protection against impact.

Advanced TPU protection layer covers the internal heel counter and toe box enhancing support and rigidity in key impact areas.

Coated leather panel forms the outer surface of the toe box providing effective abrasion and weather resistance.

Heel is encased in a moulded external protector for

increased impact dissipation and absorption.

Ankle protector is carefully shaped around the ankle bone, with reduced volume, to optimize protection and comfort.

High modulus shin guard incorporates an innovative, vertical, flex blade system offering improved forward and rearward control and a high level of impact and abrasion resistance.

Advanced instep and Achilles accordion flex zone construction, made of soft microfibers, gives superior comfort, control and support.

Medial surface stamped on top calf suede panel improves grip and protection.

Wide entry aperture for convenience, with secure upper TPR and hook and loop closure flap to allow broad ranging calf fit adjustment and support. Boot can be worn under and over riding pants and denims for adaptability.

Closure system features 4 polymer self-aligning, quick release, closures for customized and secure fitment.

Screw fixed buckle base is replaceable.

Upper collar and inner lining are formed with breathable mesh for riding comfort and freshness.

Full waterproof and breathable Gore-Tex lining ensures 100% moisture protection while maintaining

high levels of perspiration exchange.

Removable anatomic structured footbed.

Internal toe box and heel counter are built-in, under the outer skin for robust protection.

Alpinestars new and exclusive compound rubber sole for optimal combination of control and grip.

Unique Alpinestars advanced sole construction, fully perimeter stitched, is fully replaceable. The sole construction includes a structured midsole and rigid insole with an integrated steel shank for excellent feel and rigid comfort and safety

Toucan Gore-Tex boot is CE-certified to EN 13634:2010.

//// PERFORMANCE RIDING / PRODUCED SIZES: 38-50 EUR / CORRESPONDING TO: 5-14 US

SPORT COMFORT FIT

The main upper material is synthetic microfiber and offer greater comfort, durability and abrasion resistance.

Front and rear accordions are made by lightweight microfiber that offer more comfort.

Same S-MX 6 ergonomic shaping for forefoot streamlining which enables greater control of the bike's controls and offers a superior wide-ranging foot profile for better fit and comfort.

Lateral adjustable closure system envelopes around the

front accordion for a secure closure and fit coupled with hook and loop tab. The strap is located on the medial side of the top of the boot for secure fast fastening with a TPR terminal strap for an easier prehensibility.

Zip closure is covered with microfiber to protect bike from zipper scratches.

Hook and loop tab locks the zip pull closed, keeping it flat and secure.

New TPR design on medial side to protect the ankle panel.

New TPR design on lateral toe-box gives more flexion and comfort.

Rear TPR Silver insert joined with the heel counter ensures additional support and security.

Double density ankle protector on medial side layered under the upper offers protective performance and abrasion resistance in key area.

Integrated replaceable TPU bi-injected slider features new easy screw fixing concept.

High modulus TPU injected heel counter and shift pad for enhanced structural protection.

Internal toe box is layered under the upper.

Exclusive rubber compound for an optimal combination of comfort and grip.

Removable anatomic EVA footbed with Lycra® lining on top.

//// WOMEN'S ALL-WEATHER PERFORMANCE RIDING / PRODUCED SIZES: 36-43 EUR / CORRESPONDING TO: 5-11 US WOMEN

WOMEN'S SPORT FIT

Designed and constructed specifically for a women's performance fit.

Newly designed boot upper incorporates innovative front, rear bellow and rear calf zones.

Main upper material constructed from advanced microfiber for durability and repeated abrasion resistance, plus a waterproof and breathable Drystar® liner for excellent all-weather performance.

Ergonomic new last for forefoot streamlining to

enable greater control of the bike's controls.

Alpinestars innovative TPU lateral ankle brace protection provides a biomechanical support.

Air vents on the heel counter and shin plate improve comfort on short and long rides.

High modulus TPU injected shin guard, calf protector, heel counter, shift pad and toe slider.

Double density ankle protector on medial side layered

under the upper offers protection in key area.

Integrated, replaceable bi-injected TPU slider features new easy screw fixing concept.

Innovative instep and Achilles accordion flex zone construction for superior comfort and support.

Internal insole with the shank reinforcement integrated for support to the arch area and foot protection.

Medial side entry opening/closure system features

elastic-mounted zipper with wide hook and loop closure.

Internal toe box protection is layered under the upper for durability, improved feel and performance.

Dual compound removable anatomic footbed includes EVA and Lycra® for comfort and support.

Alpinestars new and exclusive compound rubber sole.

Stella SMX-6 v2 Drystar® Boot is CE-certified to EN 13634:2010.

STELLA SMX-1 R BOOT

//// WOMEN'S PERFORMANCE RIDING / PRODUCED SIZES: 36-44 EUR / CORRESPONDING TO: 5-11.5 US WOMEN

WOMEN'S SPORT FIT

Specific women fit.

Specifically engineered for women.

The main upper material is synthetic microfiber and offer greater comfort, durability and abrasion resistance.

Front and rear accordions are made by lightweight microfiber to offer more comfort.

Ergonomic shaping for forefoot streamlining which enables greater control of the bike's controls while also providing superior wide-ranging foot profile, fit and comfort.

Lateral adjustable closure system envelopes around the front accordion for a secure closure and fit coupled with hook and loop tab. The strap is located on the medial side of the top of the boot for secure fast fastening with a TPR terminal strap for an easier prehensibility.

Zip closure is covered with microfiber to protect bike against zip scratches.

Hook and loop tab locks the zip pull closed, keeping it flat and secure.

New TPR design on medial side to protect the ankle panel.

New TPR design on lateral toe-box gives more flexion and comfort.

Rear TPR silver insert joined with the heel counter ensures additional support and security.

Double density ankle protector on medial side layered under the upper offers protective performance and abrasion resistance in key area.

Integrated replaceable TPU bi-injected slider

features new easy screw fixing concept.

High modulus TPU injected heel counter and shift pad for enhanced structural protection.

Internal toe box is layered under the upper.

Exclusive rubber compound for an optimal combination of comfort and grip.

Removable anatomic EVA footbed with Lycra® lining on top.

Stella SMX-1 R is certified to CE Standards CE 89/686/EEC - CAT 2.
