ESSENTIAL RIDER EQUIPMENT

A black and white photograph of a motorcycle rider on a dirt road. The rider is wearing a helmet and a dark jacket, and is positioned in the center of the frame. The motorcycle is a modern, sporty model with a large headlight and a prominent front fairing. The background is a hazy, mountainous landscape. The overall mood is adventurous and rugged.

advanced
RIDER SERIES

GO BEYOND THE KNOWN

At Oxford, we believe that life is better on two wheels. So the further we explore on two wheels, the better life gets.

Over the last 40 years, we've maintained an unwavering commitment to making the best motorcycle equipment accessible to as many people as possible.

True exploration is often reserved for the elite; those with the most resources, who can afford the most expensive kit and the most expensive bikes.

Yet we believe that deep down most riders have a wanderlust, a dream of going on an adventure, of taking exploration to the outer limits. So we set out to produce a product range that allows every rider to explore the world fearlessly.

The best roads are challenging and often the conditions are uncertain and variable.

Our Advanced Rider Series offers a better level of versatility to protect from the widest range of conditions.

This means we can ride our bikes harder, further and for longer through the WET, COLD and HEAT.

Our Advanced Rider Series makes adventure on bikes better, pushing the boundaries of innovation so that we can push the boundaries of exploration.

It enables us to Go Beyond the Known™

warmdry™

T H E R M A L T E C H N O L O G Y

Oxford Warmdry™ high insulation, low bulk, detachable thermal liner. Prevents wind chill and holds heat against the body to keep you warm and comfortable in cold weather.

At 0 °C, the wind chill factor at just 24mph is approximately -16 °C. Add to that the impact of rain at high speeds and it is easy to see how a rider's concentration could be adversely affected. The correct use of 'layering' can dramatically reduce the effect of wind chill. WarmDry™ technology is perfect for varied weather conditions, where your body temperature needs to be regulated through effective thermal insulation and direct ventilation.

directvent™

C O O L I N G T E C H N O L O G Y

DirectVent™ allows unrestricted direct-to-body airflow through adjustable vents.
Exhaust vents create airflow channels and allows body heat to dissipate.

Oxford's Advanced Rider Series features DirectVent™ - the most effective ventilation concept in our range, delivering unrestricted breathability, direct-to-body airflow and extreme user comfort.

Adjustable frontal air intakes and rear exhaust ports located in key zones allow excess heat and perspiration to escape, enhancing rider comfort by controlling the internal climate.

DirectVent™ garments are designed to be used in the most extreme hot-weather riding environments.

dry2dry™

S T A R T D R Y , S T A Y D R Y

Our highest performing membrane, Dry2Dry™ is durably waterproof, windproof and highly breathable.

Dry2Dry™ is Oxford's highest performing moisture management system featured on the Advanced Rider Series.

Dry2Dry™ fabrics are engineered to be durably waterproof, windproof and highly breathable in order to maximise protection from the elements outside and allow water vapour to pass easily

from the inside; therefore, keeping you Dry from the outside and Dry on the inside. Dry2Dry™.

All Dry2Dry™ clothing and accessories are fully seam sealed and designed to protect and function in all riding conditions.

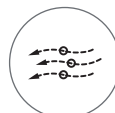

With Oxford's Advanced Rider Series you Start Dry. Stay Dry.

WATERPROOF

WINDPROOF

HIGHLY BREATHABLE

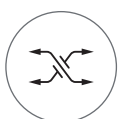

MODULAR

L A Y E R C O N S T R U C T I O N

Oxford's Modular Layer Construction is our most versatile construction yet. Allowing the rider to adapt their layer configuration to suit changing weather conditions.

By splitting each of the layers apart we have a separate removable WarmDry™ thermal liner, the highly durable waterproof and breathable Dry2Dry™ membrane, the highly durable waterproof and breathable Dry2Dry™ membrane, which can be removed allowing for maximum airflow direct to the body whilst riding.

TEXTILE JACKET

Updated version of the award winning Montreal 2.0 jacket with a host of improvements for the discerning Adventurer.

Fully featured Adventure jacket with waterproof drop liner, which includes Rainseal Technology. Updated styling from the previous award-winning model. Tall Amara lined, multi-adjustable collar with neoprene edging to give a good seal with maximum comfort. Reflective panels at the front, top and back for 360 visibility. The jacket has Ripstop and CE armour in the shoulders and elbows. The external pocket for the armour in the elbow is designed to move less in the event of a spill. Includes Oxford's 'intelligent adjustment' in the arms and waist for extra flexibility and comfort when riding. Soft Amara on the cuffs for comfort plus large adjustment gusset to keep the water out. Two large box pockets at the front are expandable, water resistant and include hand warmers. Generous accordion stretch panels on the rear make the jacket more comfortable to wear. Deep cutaway on the front hem plus a Continental Cut on the rear (extended tail) for extra weather protection. Rear box pocket. Airflow vents on front and rear. Hard wearing spear-toothed enduro main zip. Thick thermal liner for extra warmth. Oxford's Rainseal hood enclosed in neck. Pocket for optional back protector (see page 128).

TEXTILE JACKET

Adventure style jacket loaded with features, providing a versatile and comfortable riding jacket.

Adventure style jacket with waterproof drop liner, which includes Rainseal Technology. Tall collar with two adjustment points and neoprene at the edge to give a good seal with maximum comfort. Spacer mesh in the collar makes the whole jacket breathable. Reflective panels at the front, top and back for 360 visibility. Ripstop on shoulders, upper arms and back of the arms for better protection. The jacket has CE armour in the shoulders and elbows. The external armour pockets in the elbows make the protection less likely to move in the event of a spill. Includes Oxford's 'intelligent adjustment' in the arms and waist for extra flexibility and comfort when riding. Soft Amara on the cuffs for comfort plus large adjustment gusset to keep the water out. Two large Napoleon box pockets and two water resistant box pockets. Deep cutaway on the front hem plus a Continental Cut on the rear (extended tail) for extra weather protection. Rear box pocket. Air vents on front and rear. Heavy duty YKK Vislon zip. Thick 100g thermal liner for extra warmth. Pocket for optional back protector (see page 128).

TEXTILE PANT

Adventure style pant loaded with features.

Award winning Montreal pant gets an upgrade. Oxford Rainseal Tech provides all of the waterproofing on this new pant and features a waterproof, breathable Reissa membrane throughout, a double layered waterproofing in the seat, crotch and knee. It also has new Nylon knee protection making it more durable. There is a storm flap system on the waist and leg closures and it has a new calf adjuster to improve fit and makes the knee armour, which is included, more secure. Water-resistant pockets are provided on the lower leg and all of the air vents feature water resistant zips. Cooling is delivered by a system of lock-open air vents. Extra comfort is assured by stretch panels (knee and waist) which are improved and reinforced at the crotch seam, with panel overlay to improve strength and durability. The pants also have exterior hip padding and grip panels in the seat for security. Large adjustment panel are found on the lower leg to facilitate different boot styles. Heat resistant inner leg panels avoid damage from engine or exhaust heat. The rear hem is raised to avoid damage from the boot heel. The Montreal pant comes with a removable and adjustable belt and has removable braces too.

STRADALE

LEATHER SUIT

A one-piece sports road riding suit, fully ventilated and lined, complete with knee sliders.

A one-piece sports riding suit for road riders who like comfort and performance without the enforced racing crouch! Mandarin style collar suitable for sports bike riding with neoprene lining around the back for comfort. Zip cover at the neck line. The Stradale leather riding suit has full ventilation with perforations on the top of the shoulders, placement perforations on upper arms which allow the leather to keep its integrity at the seams. The entire chest area has fully ventilated leather to keep the rider cool. It has TPR on the shoulder cups. Accordion stretch at the top of the knees with a three-part knee for an articulated fit, which makes movement much easier. The rear of the suit features an aero hump for streamlining, accordion stretch behind the arms and a technical four-way stretch fabric to the groin and back of the knees. YKK auto lock zips feature on all cuffs and they have neoprene edging for comfort. The cuffs are tight fitting for better comfort when adding sports boots and gloves. Provided with level 1 CE protectors at shoulders, elbows and knees. Pocket to take Oxford back protector, available separately (see page 128). The suit comes complete with new Oxford monochrome knee sliders.

LEATHER JACKET

Leather sports jacket, fully ventilated for warmer weather.

Leather sports jacket for warmer weather. Mandarin style collar suitable for sports bike riding with neoprene lining around the back of the neck for extra comfort in the riding position. Zip cover at the neck line. Fully ventilated, this short style leather jacket has TPR shoulder cups, handwarmer pockets and placement perforations on front, upper arms and shoulders which allow the leather to keep its integrity at the seams. The entire chest area has fully ventilated leather to keep the rider cool. Stretch panels down the full length of the inside of the arms, auto lock YKK zips which allow the zips to be locked in position, stopping them riding up. Neoprene is included around the cuffs for greater comfort and inside has a leather gusset. On the rear of the jacket there are stretch panels on the shoulders and the back of the arms. Adjustment straps on the hips are provided for a custom fit. Embossed Oxford logos. Internal Napoleon pocket. Short connection zip. Provided with level 1 CE protectors at shoulders and elbows. Pocket is provided to take an Oxford back protector, which is available separately (see page 128).

TEXTILE JACKET

Sports style, textile riding jacket designed for comfort and style.

Sports style riding jacket designed for comfort and style. Mandarin style collar with rolled neoprene and Amara on the inside for comfort. Air vents for extra air flow in warm weather come complete with water resistant zip closures. Centre front zipper is also waterproof and has a storm gusset for extra weather protection. Reflective elements to front, sleeves and back. At the top of the sleeves there are TPR mouldings for extra protection and on the back, as an upgrade on the previous version of this jacket, there are two air vents with water resistant zip closures. High Denier material with great abrasion resistance from upper to lower arm. Hand warmer pockets and adjustment straps on upper arms. On the cuffs, there are 'set it and forget it' adjustments which makes it easier to set your personal preference of wearing gloves under or over the jacket. Removable internal thermal liner. Half zip at the base to attach to any Oxford textile pants. Provided with level 1 CE protectors at shoulders and elbows. Pocket provided to take an Oxford back protector, which is available separately (see page 128).

MESH TEXTILE JACKET

A short, stylish, sports jacket designed for warm weather riding with a waterproof layer which can be worn inside or outside the jacket

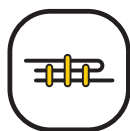

Fully ventilated summer riding jacket, with a waterproof membrane which can be worn inside or outside the jacket. It has a 'Mandarin collar' for extra comfort, reflectives on the top of the shoulders and rear. 1680D heavyweight ballistic fabric in the key critical areas. Includes Oxford's 'intelligent adjustment' in the arms and waist for extra flexibility and comfort when riding. Soft Amara on the cuffs for comfort plus large adjustment gusset to keep the water out. Heavy duty mesh to the front, rear and to the inside of the arms for full ventilation in warm weather. Hand warmer pockets. The external armour pockets in the elbows make the protection less likely to move in the event of a spill. Emergency waterproof over jacket is included should the rider be caught out. Pocket for optional back protector (see page 128).

HAMPTON

LEATHER JACKET

Premium classically styled leather riding jacket.

A classic leather riding jacket; the Hampton is loaded with features and style in equal measure. With CE approved armour in shoulders and elbows, discreet front and rear reflective strips in the shoulders, it is a practical riding jacket as well as being comfortable to walk around in. A quilted and removable thermal lining completes this new, top-of-the-range jacket from Oxford.

The safety seams are engineered to maximise garment performance with multiple hidden row stitching, using top quality Coates thread. The reinforced structure uses combinations of overlay & hidden extra layers of material in critical areas to improve garment performance. Short zip at the base to attach to any Oxford pants. Hand warmer and inner document pockets. Removable 100g thermal liner. Provided with level 1 CE protectors at shoulders and elbows. Pocket provided to take an Oxford back protector, which is available separately (see page 128).

BLADON

LEATHER JACKET

Retro leather riding jacket.

The Bladon leather jacket mixes contemporary style with a slice of café racer chic. Using cow leather, it's lightweight, supple and sporty and this hard-wearing riding jacket is complete with CE approved shoulder and elbow armour, triple stitching to the back of the arms for added strength and 4 pockets on the front. The debossed Oxford logo finishes off a great-looking jacket.

The safety seams are engineered to maximise garment performance with multiple hidden row stitching, using top quality Coates thread. The reinforced structure uses combinations of overlay & hidden extra layers of material in critical areas to improve garment performance. Short zip at the base to attach to any Oxford pants. Hand warmer and inner document pockets. Removable 100g thermal liner. Provided with level 1 CE protectors at shoulders and elbows. WALTON

LEATHER JACKET

Classic leather riding jacket.

The Walton jacket is a tough, 100% leather riding jacket made from cow leather giving it a supple and lightweight feel. The yoke and the back of the arms are triple stitched for extra strength and with the subtle reflective patch on the back, this jacket has both style and substance. CE armour for elbows and shoulders complete a great value leather jacket.

The safety seams are engineered to maximise garment performance with multiple hidden row stitching, using top quality Coates thread. The reinforced structure uses combinations of overlay & hidden extra layers of material in critical areas to improve garment performance. Short zip at the base to attach to any Oxford pants. BRADWELL

WAX JACKET

Premium motorcycle jacket constructed from the highest quality British Millerain® waxed cotton.

This vintage-styled wet waxed cotton jacket uses traditional materials and manufacturing techniques to recall a time when people worked and played outdoors, come rain or shine. But hidden beneath the old-world look is a hidden layer of modern technology, to offer the best user experience. Respectful of the material's heritage, Oxford's designers have employed traditional tailoring methods to assemble the outer garment. For example, pockets are pleated in order to lie flat when empty, but provide space to expand when full. The mechanical stretch required in the back of the jacket to facilitate reaching the handlebars comfortably is created through another style of pleat, rather than with modern flexible fabrics. The collar and its accompanying belt are designed and cut in 3 dimensions, rather than as simple, flat panels; the resulting fit is just perfect. And the labour-intensive triple-stitching employed in all the potential impact areas is as pleasing to the eye as it is protective. Pocket provided to take an Oxford back protector, which is available separately (see page 128).

PARKA

TEXTILE JACKET

High specification, laminated Parka riding jacket.

Oxford's range of Urban products is growing. The new Parka sits alongside our Kickback shirts, reinforced denim and our ladies leggings and jeggings in a range of products, which are practical and stylish on and off the bike. It features Oxford's Rainseal Tech, making it an all-round performer for the scooter or commuter rider. A long jacket featuring a laminated integrated layer construction; therefore lightweight, waterproof and breathable. Packed with rider-friendly features, it has a removable hood and a high neckline to give extra wind and weather protection. It features a button-down front placket for extra weather protection, a storm flap on the inside with bar tacks to prevent water ingress and is secured with a chunky YKK Vislon zip. Abrasion-resistant panels made from 100% nylon on the shoulder and elbows makes this a tough jacket that will go the distance in the cut and thrust of a daily commute. The jacket is provided with CE level 1 protectors to shoulders and elbows and a tailored pocket for an optional back protector (see page 128).

CHURCHILL

TEXTILE JACKET

A brand new Heritage jacket for everyday use.

Constructed from high thread-count Polyester, this waterproof jacket satisfies an ever-increasing demand for stylish jackets which must also be practical. Features include neoprene-edged collar and cuffs, a removable thermal liner and a removable collar strap. The design includes a quilted overlay to the forearms and shoulders and a storm flap keeps the worst of the weather at bay. A short front zip ensures comfort even when sitting. There are 4 box pockets on the front of the jacket, highlighting the traditional style of the garment and there is a vertical expansion panel on the back for extra flexibility in the riding position. A Napoleon pocket provides easy access to small items and an adjustable belt finishes off the look. A short connection zip is provided, which attaches to any Oxford pant. CE Level 1 shoulder and elbow protectors are provided, as is a pocket for an optional back protector (see page 128).

KICKBACK SHIRT

KEVLAR REINFORCED SHIRT

Casual cotton shirt lined with 100% DuPont™ Kevlar®

The Kickback shirt is a soft cotton casual shirt on the outside, but a technical riding garment on the inside.

It is fully lined with 100% DuPont™ Kevlar® to provide abrasion resistance in the case of an accident. Behind the front poppers lies a secondary YKK zip closure. This is mounted on tough webbing which is in turn sewn onto both the cotton outer and the anti-abrasion lining, for maximum strength.

Also attached through both layers of material are two secure belt loops, which should be used to avoid the shirt riding up in the event of a tumble.

The shirt is mesh-lined for comfort and comes with pockets for elbow, shoulder and back protectors, which can be purchased separately according to your preference (see page 128 - 129).

JEANS COLLECTION

KEVLAR REINFORCED JEANS

Fashion inspired jeans lined with 100% DuPont™ Kevlar® fiber

The 100% Dupont™ Kevlar® element which delivers the abrasion resistance, covers a large area for the best protection. At the front, it starts at the waistband and continues down to the bottom of the knee and on the rear, is from the waistband to the top of the leg.

The back yolk is fully felled, twin-needle chain stitched, and has the 100% Dupont™ Kevlar® inserted into the felled seam for a really clean and strong finish. A felled seam is the toughest seam available and has been tested in Oxford's in-house lab so that our customers can be assured of quality and strength. It is also the cleanest seam with no raw edges ensuring these jeans are the most comfortable on the market.

The outside of the jeans has standard "busted" out-seams, which is the traditional way. All seams and materials are destruction-tested on Oxford's in-house tensile test machine.

The hip and knee armour pockets are slip-in style rather than Velcro elements, to reduce the number of harsh seams that may cause irritation when riding.

The new jeans feature specially designed Oxford tack buttons on the front and Oxford rivets on the pockets, including on the chevron style coin pocket. Chevron back pockets and leather patch to the rear plus YKK auto lock zip on the fly complete the features.

BECKLEY

LEATHER JACKET

Tailored leather riding jacket

The Beckley jacket is manufactured from premium cow leather giving it a supple and light-weight feel. Specifically tailored for women, this jacket has loads of detail including stretch panels for extra comfort, CE armour to the shoulders and elbows and a hem yoke to keep the lower back covered. A classic motorcycle collar with rolled perforated leather makes it feel even more luxurious.

BRADWELL

VINTAGE WAX JACKET

Premium motorcycle jacket constructed from the highest quality British Millerain® waxed cotton

This vintage-styled wet waxed cotton jacket uses traditional materials and manufacturing techniques to recall a time when people worked and played outdoors, come rain or shine. But hidden beneath the old-world look is a hidden layer of modern technology, to offer the best user experience. Respectful of the material's heritage, Oxford's designers have employed traditional tailoring methods to assemble the outer garment. For example, pockets are pleated in order to lie flat when empty, but provide space to expand when full. The mechanical stretch required in the back of the jacket to facilitate reaching the handlebars comfortably is created through another style of pleat, rather than with modern flexible fabrics. The collar and its accompanying belt are designed and cut in 3 dimensions, rather than as simple, flat panels; the resulting fit is just perfect. And the labour-intensive triple-stitching employed in all the potential impact areas is as pleasing to the eye as it is protective.

MONTREAL 3.0

TEXTILE JACKET

The award winning Montreal jacket gets tailored just for women

Brand new jacket tailored for women, replicating all of the benefits and features of the award winning Montreal jacket. Loaded with features, this jacket has an Amara collar which has an adjustable fastener plus a snap-back facility to keep the neck line slightly open. There are two front chest vents and two back vents to keep things cool, a storm flap system under the acentric closure which also features a heavy duty zip. The jacket is fully adjustable to fit so has arm, waist and hip adjusters to get exactly the right comfort level. This includes adjustment at the cuff too, which also has soft-touch edging for real comfort. There are accordion stretch panels across the back and above the elbow and the jacket has hidden exterior armour pockets - shoulder and elbow protection is included, both at level 1. There are two front box pockets with expansion bellows, plus a large box pocket at the rear. Inside the jacket has had the full Montreal treatment with a waterproof drop liner, a removable thermal liner, multiple pockets including the all-important Napoleon pocket for easy access.

A short connection zip is provided to attach Oxford pants as is a pocket for an accessory back protector.

DAKOTA 2.0

TEXTILE JACKET

The new Dakota is a simple, stylish jacket designed specifically with women in mind

A straight forward, long style touring jacket created for women who like simple, clean designs. Beautifully tailored, this new version of our Dakota jacket is cut for women only. It has a neoprene and fleece collar, adjustable via hook and loop. Ventilation is supplied via two inlet vents on the front shoulders and a rear yoke outlet. Waist and hip adjusters ensure the perfect fit and the jacket also comes with cuff adjusters. Pre-curved sleeves give extra comfort. The zip is protected by a storm flap to keep the worst of the weather at bay, but when it heats up, the thermal liner can be removed.

There are three inner pockets including a Napoleon pocket

Subtle black reflective elements make sure that the jacket is seen in low light conditions.

TEXTILE PANTS

The new Montreal pants for women -
waterproof, tailored and very comfortable

Complementing perfectly the new Montreal women's jacket, are these waterproof, breathable, tailored pants. they feature double layered waterproofing in the seat, crotch and knee with grip material to the exterior seat area for extra security. The waist is secured by a press stud and hook-and-bar system and there is a storm flap system on waist and leg closures, water-resistant pockets on the lower leg and also water resistant zips on all air vents. Cooling is delivered by a system of lock-open air vents. Extra comfort is assured by stretch panels (knee and waist) and exterior hip padding. Large adjustment panels on the lower leg facilitates different boot styles and there is heat resistant material on the inner leg panels, avoiding damage from engine or exhaust heat. There is a raised rear hem, designed to avoid damage from the boot heel. The pants come with a removable and adjustable belt and braces and lots of printed reflective detailing for improved visibility at night. Reinforced crotch seam with panel overlay to improve strength and durability. Accordion stretch panels feature above the knees and there are plenty of pockets featured, with hand warmer and box style.

DAKOTA 2.0

TEXTILE PANTS

Touring & commuter pants with a removable thermal liner, specifically tailored for women

The Dakota pant is a simple, functional, well tailored garment which complements the new Dakota jacket perfectly. It has a press stud and hook-and-bar closure on the adjustable waistband and handwarmer pockets. The waist also has belt loops if there is a requirement for an added belt. Reflective heat transfer logos are applied to the knees, calf and seat areas for that added security when riding at night. Abrasion resistant materials on the knees and the seat give better wear and a high-rise is included at the back to make the fit between the jacket and pant improved, with of course a short zip for the jacket attachment. An accordion stretch panel across the back of the pant allows for flexibility and a grip panel in the trouser seat gives extra security. The inside of the pant features a removeable liner for when the weather gets hot and level 1 knee protectors are provided.

SUPER JEGGINGS

WOMEN'S JEANS

Reinforced rider's Jeggings with CE protectors and 100% DuPont™ Kevlar® Fiber reinforcements

For those women who like to have protection whilst looking and feeling good! Using an Aramid lining, these leggings offer serious protection, which includes great abrasion resistance and CE level 2 knee protectors plus additional hip protector pockets should you decide you need to upgrade. These leggings can also be worn under normal clothing, giving you extra confidence on your ride.

- Full CE Level 2 (CE:EN1621-1-2012) knee protectors fitted
- Velcro free knee protector pockets for comfort
- Features hip protector pockets (CE hip protectors sold separately)
- Outer shell, made from 92% Polyester with 8% Elastane. The lining is 5% Elastane, the balance being 100% DuPont™ Kevlar®. This combination provides abrasion resistance-4 way stretch panels for the jeggings.

WOMEN'S JEANS

Reinforced rider's Leggings with CE protectors and 100% DuPont™ Kevlar® Fiber reinforcements

BLACK

TW169101/201/301

For those women who like to have protection whilst looking and feeling good! Using an Aramid lining, these leggings offer serious protection, which includes great abrasion resistance and CE level 2 knee protectors plus additional hip protector pockets should you decide you need to upgrade. These leggings can also be worn under normal clothing, giving you extra confidence on your ride.

- Full CE Level 2 (CE:EN1621-1-2012) knee protectors fitted
- Velcro free knee protector pockets for comfort
- Features hip protector pockets (CE hip protectors sold separately)
- Outer shell, made from 92% Polyester with 8% Elastane, and 95% Kevlar® fibre with 5% Elastane lining, provides abrasion resistance-4 way stretch panels
- Flag stitching on the belt loops for security

HOW TO MEASURE

MEN'S & WOMEN'S SIZES

A - CHEST/BUST

Measure around the fullest part of your chest/bust, keeping the measuring tape horizontal.

B - WAIST

Measure around the narrowest part (typically the small of your back and where your body bends side to side), keeping the tape horizontal.

C - HIPS

Measure around the fullest part of your hips, keeping the tape horizontal.

D - INSEAM

Measure from the top of your inner leg along the inside seam to the bottom of your leg.

SIZE GUIDE This size conversion chart is to be used as a guide only. It is not an exact conversion and does not guarantee an exact fit.

-------	----------	---------

Rainseal Waterproofing Spray

This remarkable spray is designed to reproof waterproof and protect virtually any fabric, especially polyester, cotton and nylon.

- Rain droplets simply bead-up and run off the fabric surface and away from seams
- Forms an invisible barrier and protects against water, dirt, oil and bird droppings
- UV inhibitors give protection against the sun's harmful rays
- Re-apply every 6 months
- Can be used on clothing, outdoor covers, tents, carpet etc.
- More environmentally friendly than silicon-based products and gives better long term protection

APPLICATIONS

- Luggage
- Shoes/boots
- Outdoor covers
- Tents
- Outdoor clothing

Shift Guard Shoe Protector

This slip-on motorcycle boot shifter protector solves an age-old problem. It fits over any size boot and protects the boot fabric from being ruined by the gear shifter.

Keep your shoes unmarked! These are an ideal solution for the urban commute and work perfectly to protect trainers as well as office shoes.

FEATURES

- Universal fit secured with elastic 'hook-and-loop' attachment
- Durable material
- Protects shoe from gear shift

NEW Advanced Layers Range

Our layers range has been a reliable seller for years, and whilst we knew the wheel didn't need to be reinvented we felt improvements could be made. We have subtly improved the fit and fabrics, updated the **branding** and invested in much more effective **packaging** to bring the products into the new **Advanced Accessory Range**.

Keeps the CHILL OUT using a windproof barrier

Keeps you WARM & DRY during the cooler seasons

Keeps you COOL & DRY during the warmer seasons

- Our layers now target three specific and clear uses to choose from;
- Each range is colour coded on the packaging and product so it can be identified clearly;
- All layers have reflective gel print highlighting the product function and our new branding;
- All layers employ flatlock seams for extra comfort;
- Consistently sized, sturdy and easily accessed packaging boxes are designed to survive and thrive in retail life, whilst properly presenting the garments.

WarmDry Layers Thermal Layers

Oxford Warm Dry layers offer a thermal base layer, which can be used all year round.

FEATURES

- Thermal comfort
- Anti-odour, anti-bacterial treatment
- Fast drying, wicks moisture from skin
- Reinforced flat lock seams are tougher and more comfortable
- Size range: XS - 3XL
- Red colour coded trim

This **Thermal Layer** keeps you **Warm & Dry**

A NEW ERA FOR OXFORD

We have been creating market-leading motorcycle accessories for almost half a century.

Our team of active enthusiasts and skilled technicians uses the latest CAD technology to innovate, analyse, test and develop a range of products designed to make life better on two wheels.

On the following pages, you will see our latest generation of **ADVANCED MOTORCYCLE ACCESSORIES**.

Ultra Vision Tinted Visor Insert

- Fits almost all helmets and turns them into a tinted visor
- Proven in all weathers
- Easy to use and clean
- Tack free
- Track tested
- Conforms to BSEN1836: 1997 Category 2
- Includes template for Arai helmets

Bumper Essential Helmet Protector

Avoid rider and pillion helmets coming together with an uncomfortable 'thwack' by using the innovative new Oxford Bumper helmet protector!

These knocks are almost unavoidable when riding pillion, but if you attach a Bumper to the back of the rider's helmet you can minimise the damage and discomfort.

However, here's the really clever bit...

This unique product uses a carefully formulated blend of special materials to be extremely grippy without using adhesives. This means that you can take it on and off any number of times – either for re-positioning purposes or because you only want to use it when riding with a pillion. Choose from one of 7 quality designs to protect your helmets and look good in the process.

*Wash thoroughly in soapy water before re-use to restore 'stickiness'

Lid Locker Lockable Helmet Bag

This unique product finally answers the question: how to leave your helmet with your bike without it getting wet, damaged or stolen?

The helmets remains completely protected from the elements at all times. The lock (not provided!) is threaded down a weatherproof tube which runs through the visor aperture and out of the bottom of the helmet (see image) so that you can lock it to the bike. The easiest lock to use is an armoured cable lock (such as an Oxford Revolver), but you could equally use a chain lock or a regular cable lock.

- Secure way to leave your helmet with your bike and keep it protected from the weather
- Compatible with most chains and cable locks
- Handy 'Hook-and-loop' hanging strap to keep your helmet off the wet ground

FITS CHAINS & CABLE LOCKS UP TO 40MM DIAMETER

The following Oxford locks can be used in conjunction with this product

Monster	Patriot
Hardcore XL 13	HD Chain
Combi Chain 10	Revolver
Tripwire	Barrier
Looplock	Lockmate

COVERS CAN HELP REDUCE THEFT

FEATURES

- This premium indoor cover is the perfect barrier to protect your motorcycle paintwork from thousands of tiny scratches caused by dust particles
- 4-way stretch material in a seamless construction provides huge flexibility for different shapes and sizes of bike, whilst ensuring a figure-hugging fit
- Soft lining protects paintwork from minor bumps
- Breathable material to avoid condensation/moisture retention and the resulting risk of rust
- Elasticated base with adjustable belly strap to secure in place

IMPORTANT: Do not allow this cover to come into contact with hot exhausts, engine parts or sharp objects

Tank Bumper Reusable Rubber Tank Pad

OXFORD
UNIQUE
DESIGN

KEY FEATURES

WEATHER
RESISTANT

PROTECTIVE

REUSABLE/
MOVABLE

SECURELY BONDS
TO BIKE SURFACE

Avoid otherwise unavoidable knocks and scratches to your tank by using the innovative new Oxford Bumper tank protector!

Your tank cannot avoid contact with you and your riding gear without protection, damage is inevitable. But if you attach one of these Bumpers to your tank, you can minimise the damage.

However, here's the really clever bit...

This unique product uses a carefully formulated blend of special materials to be extremely grippy without using adhesives.

This means that you can take it on and off any number of times either for re-positioning or cleaning purposes or because you want to use it on multiple bikes.

Choose from one of 2 stylish colour ways to protect your bike and look good in the process.

FEATURES

- Reusable tank protector - wash thoroughly in soapy water before reuse to restore 'stickiness'
- Weather resistant
- Securely bonds to bike surface
- Reusable/Movable - No glue used
- Do not use in temperatures above 35 degrees Celsius / 95 degrees Fahrenheit

Size: 205mm (L) x 150mm (W)

EYESHOT LED INDICATORS

Replace your indicators with these beautifully crafted, high performance components

OXFORD
UNIQUE
DESIGN

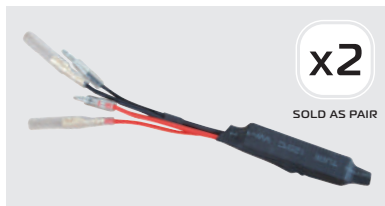

Replace your standard indicators with these beautifully crafted, miniaturised, high performance components. A battery of high intensity Light Emitting Diodes (LEDs) puts basic, low wattage bulbs in the shade.

With up to 10,000 MCD (1000 candle power) - or **150,000 MCD for the Nano** - of lighting energy that is optimised by the latest 'Honeycomb' lens technology, helping to maximise your visibility when manoeuvring.

As well as their bespoke design and enhanced performance, Oxford Eyseshot LEDicators boast a much longer life-span than conventional bulb-lit indicators, so you can spend more time enjoying your bike and less time maintaining it.

Hothands

Motorcycling can provide the human body with one of the most challenging and sometimes even hostile environments it ever has to endure. Even just 'slightly cold' weather is multiplied by wind chill to produce minus figures which mere mortals would not entertain. Being cold isn't fun, but truly cold weather can become plain dangerous, as body function and concentration become impaired.

So if you are riding during the cooler months, you need appropriate protection and Oxford's heated products have been developed over many years to provide just that. During the 1980s, Oxford pioneered the concept of heated motorcycle grips. Today, the world-beating technology which goes into the company's most famous and loved product – HotGrips – is easy-to-use, reliable and totally effective. This knowledge and experience has now been put into the development of a whole range of heated clothing products, to keep both your extremities and your core body temperature where it needs to be for safe and enjoyable riding.

Once you have experienced the joy of heated riding, there is simply no going back...

Jan, 2016

10/10 REVIEW FOR OXFORD HOTGRIPS™

"When it comes to winter riding cold hands cause an annoyance like nothing else, Mike Beddows has tested eight of the best heated grips on the market to help you keep your digits warm when the temperature drops"

www.twistngo.com

5* REVIEW FOR OXFORD HOTGRIPS™

Tester: Wayne Tempest

"It all worked first time, which for me is a miracle!"
"I couldn't recommend these grips highly enough."

HOTGRIPS PREMIUM RANGE

Oxford HotGrips™ are the ORIGINAL and the BEST. The PREMIUM range is the result of over 30 years of research and development by British engineers and motorcyclists.

The grips have ergonomically engineered surface structures to optimise riding performance. Thicker rubber in areas of maximum wear; rhombus tread pattern for vibration absorption; 5° block siped tread patterns for high levels of grip and feel; diamond tread pattern where maximum grip is required.

- The grip length can be trimmed if required and has open ends so that bar end weights can be fitted.
- The intelligent heat controller uses a sealed-for-life welded case construction for long-term durability and weather proofing.
- 5 heat settings give the perfect operating temperature with LED lights to indicate the level.
- The Battery Saving Mode protects against flat batteries. If you forget to turn the switch off, it will do it for you!

New switch technology means that, if the engine is switched off, the grips will automatically turn off until enough power is available. This eliminates the need for the user to buy and fit relays.

Thanks to their unique expandable design and fool-proof wiring loom, HotGrips are extremely easy to fit. Connection to the motorcycle could not be simpler: connect the 2 ring connectors to the battery. No need to wire the positive to a live ignition feed.

Essential ATV Hotgrips

OXFORD
UNIQUE
DESIGN

Ergonomically engineered grip surface structures:

- 1 Moulded wiring arrangement is both durable & discreet
- 2 1-piece moulded construction ensures unrivalled performance and reliability
- 3 Grip design fits the vast majority of bikes, but can be cut down in size if required
- 4 2 way switch with High/Low function
- 5 Soft, ultra-grippy rubber provides comfort & feedback

Lever Guards Aluminium Brake and Clutch Lever Guards

x2
SOLD AS PAIR

i **Tip:**
Can be converted into Oxford Hand Guards with the purchase of OX702.

Lever Guards were developed to help avoid the accidental engagement of the front brake lever during close wheel-to-wheel racing. This concept can equally be applied to road riding, protecting your lever(s) from wing mirror strikes while filtering. Easy to install

FEATURES

- Universal fitting
- Unique Oxford design
- Lightweight CNC alloy construction
- 12-18mm diameter expansion bushes
- Fits 22mm diameter handlebars
- Pack includes 2

CODE DESCRIPTION

OX700 LEVER GUARD

OX702 HAND GUARD KIT

Hand Guards

x2
SOLD AS PAIR

i **Tip:**
Can be converted into Oxford Lever Guards with the purchase of OX701.

The purpose of motorcycle handlebar guards is to protect the riders' hands while riding a motorcycle. In recreational settings one's hands may be struck by tree limbs, flying objects or other hazards.

Typically handlebar guards are mounted on recreational motorcycles as these are the most likely to encounter obstacles that might interfere with the safe operation of the vehicle.

FEATURES

- Universal fitting
- Unique Oxford design
- Lightweight CNC alloy construction
- 12-18mm diameter expansion bushes
- Fits 22mm diameter handlebars
- Pack includes 2

Oximiser 3X Advanced Battery Management System

The Oximiser 3X is Oxford's most versatile, most powerful, multi-purpose battery maintenance product. It offers not one, but THREE automated charging programs for differing battery sizes - perfect for bikes, cars, even leisure batteries! So, if you have multiple toys in your garage, it's the only battery optimiser you are ever likely to need.

8 STAGE BATTERY MANAGEMENT SYSTEM:

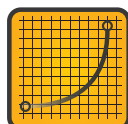

Polarity Check

Checks the battery leads have been connected correctly

Battery Analysis

Assesses battery & determines best charging method

Soft Start Charge

Controlled build up of charge current ensuring discharged batteries are charged safely

Bulk Fast Charge

Charges at a fast rate to bring the battery to approximately 85% capacity

Absorption Charge

Lowers the charge rate & gives a topping charge to ensure the battery is charged to 100%

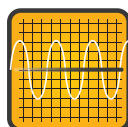

Voltage Check

Hourly voltage checks assess battery health

Battery Condition

LED lights indicate a weak or strong battery

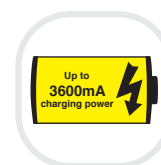

Maintain Mode

Applies an appropriate charge if voltage drops outside acceptable limits to ensure the battery voltage and condition remains perfect

LITHIUM ✓

LEAD ACID ✓
GEL ✓ AGM ✓

For batteries up to 125Ah capacity

- Designed and tested in the UK using top quality long-life components.
- A 2 year warranty is included as standard.
- A 'soft-start' charging mode to improve recovery of deeply discharged batteries as low as 8 volts.
- Intelligent charging will 'cycle-charge' in an attempt to recover sulphated batteries.
- Suitable for all 12V automotive batteries including LITHIUM lifePO4 motorcycle batteries.
- New voltage sensors quickly detect high current drain and will automatically revert to the most appropriate charge rate.
- Fast and efficient charging in all modes keeps charge times short and reduces mains power consumption.
- Soft touch rubberised case for improved grip and ruggedness.

THE IDIOT'S GUIDE TO THE OXFORD OXIMISER 3X AND OXIMISER 900

Attach to your battery and it will charge until the battery has reached full capacity and thereafter ensure that it is kept in tip-top condition.

If the battery is deeply discharged it will recover it with a varying charge rate and then it never drops below the critical voltage level of 12.6V.

The digital displays and battery level indicators keep you informed every step of the way. They are suitable for use on a variety of vehicle batteries - see guidance below.

NOTE: If a battery is left discharged for even a short period of time and remains under 11.9V, permanent damage will occur and even the smartest battery charging methods are unlikely to recover the battery to a useable condition.

TYPICAL APPLICATIONS:  |  |  | 

Oximiser 601 Essential Battery Optimiser

The OXIMISER 601 is a modern charger designed to charge, optimise and prolong the life of a 12V automotive battery. It uses a continuous yet variable charge current to ensure that the battery is charged correctly. If a load is applied to the battery, this charger will compensate by automatically increasing the charge current and thereby maintain the battery condition. It can be used with most batteries including Maintenance Free and Gel types. It is ideally suited for charging batteries ranging in size from 4Ah - 30Ah. This covers batteries normally fitted to scooters, motorcycles, golf trolleys, light aircraft, ride-on lawn mowers and small (such as classic and racing) cars.

3 STAGE BATTERY MANAGEMENT SYSTEM:

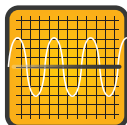

Polarity Check

Checks the battery leads have been connected correctly

Bulk Fast Charge

Charges at a fast rate to bring the battery to approximately 85% capacity

Float Charge

Applies a small float charge current to ensure the battery voltage and condition remain optimised

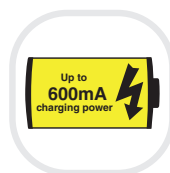

LEAD ACID ✓
GEL ✓ AGM ✓

1. Ventilation
2. Battery connection/ polarity error indicator
3. LED charge voltage indicator
4. Dead battery indicator
5. Continuous float charge
6. Induction cooling

- Suitable for 12v automotive battery types up to 30AH including: Gel, *Lithium, MF and Acid batteries
- Recovers deeply discharged batteries
- Protected against short circuit
- 2 year guarantee

WARNING: Not suitable for 6V or 24V batteries.
Protected against short circuits. For 240V

For batteries up to 30Ah capacity

CODE	SIZE
EL600	UK
EL601	EUROPE

Oximiser 601 can be left permanently connected to provide guaranteed long term battery care. Quickly charges battery at up to 600mA/hour until full and maintains a gentle trickle charge to keep battery optimised.
*Use on Lithium batteries only to charge then disconnect

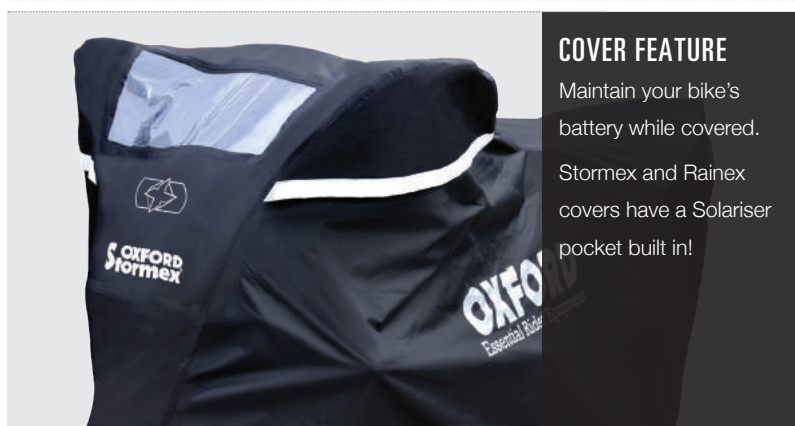

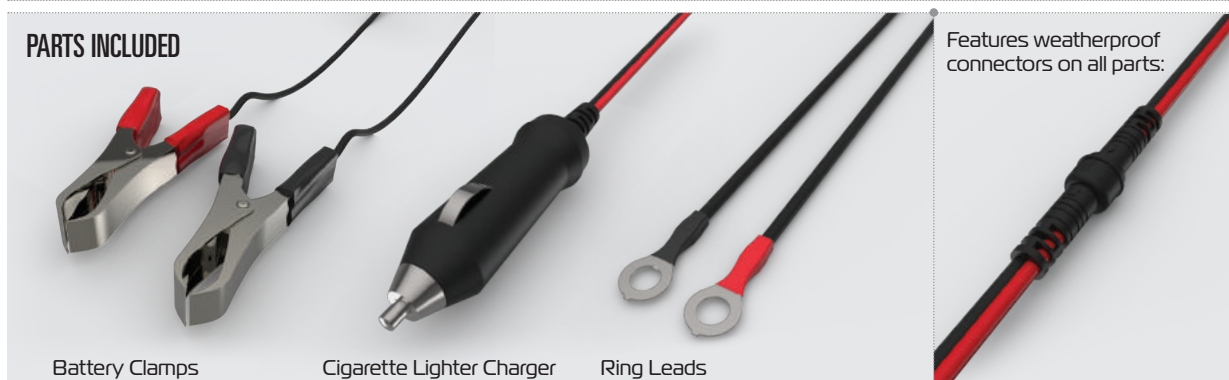

TYPICAL APPLICATIONS: | | |

Solariser Essential Solar Battery Optimiser

- 1.8 Watt Solar battery charger for maintaining 12V automotive batteries all year round.
- Perfect for where there is no mains power source.
- Ideal for vehicles left outside or in remote lock-ups where the Solariser can be left outside or attached to a window or garage roof.
- LED light shows battery will charge with available light.
- Operates in extreme temperatures -20°C to 100°C .
- Trickle-charge current between 10mA - 100mA.
- Weatherproof connectors.

Oxford Tyre Warmers

Designed for those track and racing days when you need to pre-heat tyres before taking the bike onto the track. Preheating gets the temperature up to approximately 80°C, prolongs the life of the tyres and, more importantly means you get the best out of those track/race days.

Manufactured in a heat-resistant fabric and reinforced with Nylon, the product has been designed to be 'easy fit' and is supplied in a handy carry bag to tidy the product away after use.

Frame Forks & Bobbins

Frame Forks must be fitted to the rear paddock stand before bobbins can be used.

Features

- Makes fitting a rear paddock stand to your bike much easier and quicker
- Does not mark the bike's swingarm

- The majority of bikes have pre-threaded holes in their swingarms to fit bobbins (consult your bike manufacturer for the bolt and thread size required for your bike)
- Some bikes have uneven swingarms, making the use of bobbins the only way to safely fit a rear paddock stand

Ramp Aluminium Loading Ramp

- Designed for use with bikes up to 340kg
- Wide design is ideal for use by 1 person
- Lightweight folding construction makes the ramp easy to store when not in use
- Unique 'Hook-and-loop' strap keeps ramp safely closed when carrying it
- Can hook onto a 13mm / 1/2" bar on the tail of pick-up truck
- PVC coated resting forks to avoid scratching vehicle
- Includes webbing strap to hold ramp to vehicle
- Dimensions: 2.1m / 7ft long x 27.5cm / 11" wide

CODE	COLOUR
OX748	SILVER

SuperBike

Save your bike, save your thigh. Buy a proper ramp, like this Oxford one. It folds, taking up less space in your van/garage, it has a nice curve so you don't drag your undercarriage, and it has grippy 'fingers' at the end to prevent slippage.

Bar Strap Harness Handlebar Tie Down Harness

- Makes attaching bikes to trailers easier and safer than with regular straps alone
- Suitable for most motorcycles, including Moto-X, road bikes and ATVs
- Simply slide the bar straps over the grips and attach conventional tie-down strap to a stable forward fixing point
- Tough, flag-stitched webbing provides the strength, thick fleece prevents paint wear
- 4.5cm wide nylon webbing

CODE	COLOUR
OX746	BLUE

Use OX746 in conjunction with OX742 S-Hook Straps (page 209)

Bar Strap Kit Handlebar Tie-down Harness & Straps

- The ultimate tie-down strap and harness system
- Integrated cam buckle straps eliminate the need for conventional strapping
- High tensile carabiner hooks guarantee fast and secure fitting to trailers, etc
- Hand loops fitted to allow maximum tensioning
- Soft fleece pads to prevent scratching of paintwork

OXFORD LUGGAGE OVERVIEW

A COMPREHENSIVE COLLECTION OF LUGGAGE

S-SERIES

Oxford's new S-Series motorcycle luggage combines tough construction with clean styling and quick-release convenience.

You can enjoy the benefits of both hard and soft luggage with Oxford's latest innovation.

Soft-touch materials are formed into a rigid construction using advanced vac-forming processes. This creates stylish, wipe-clean surfaces and crisp shapes which complement the lines of the motorcycle, yet you retain the easy-to-live-with qualities of soft bags.

The well-organised storage compartments are easy to access through weather-resistant zips and all bags come with rapid attachment/detachment systems.

R-SERIES LIFETIME LUGGAGE

Oxford's Lifetime Luggage is the jewel in its crown, benefiting from 20 years of passionate development since its launch in 1997.

Most bags look roughly the same from the outside, differentiated only by the styling, number of pockets and a few handy features.

The difference between a good bag and a GREAT bag is what you don't see at first glance; the material composition, construction methods, waterproofing systems, safety mechanisms, tried and tested componentry and built-in real-world usability.

You don't need to know that Oxford's test laboratory has specified, amongst other things: flag-stitched stress points; taped waterproof liners; innovative and over-engineered security straps; tough outer materials to battle the elements; soft touch-point materials to protect your bike; bright interiors for better content visibility; self-healing zippers; comprehensive user guidelines.

You'll carry on not needing to know for years and years... which is why Oxford Lifetime Luggage comes with an unparalleled Lifetime Guarantee.

AQUA

Oxford's Aqua bags are one of the easiest ways to get your gear from A to B on a motorcycle, safe and dry. They are made from a tough PVC tarpaulin, which is welded to form waterproof seams. When straps are added to perform essential functions (such as securing the bag onto a motorcycle), Oxford uses innovative construction techniques to further reinforce the bag whilst ensuring complete waterproofing.

The latest generation of Oxford's acclaimed Aqua luggage now offers a choice of five useful tail bag sizes from commuter 8L, through to 'epic voyage' 70-litre versions – plus a range of backpacks tail and tank bags.

OXFORD LUGGAGE OVERVIEW

A COMPREHENSIVE COLLECTION OF LUGGAGE

F1

Oxford's F1 luggage provides an economical alternative to the Lifetime range, with all the essential features and a few more besides. The bags retain all Oxford's approved construction methods, waterproofing systems and safety mechanisms in a wide range of styles and sizes to suit most bikes. The range also boasts a unique feature. Five colour swatches are provided for you to colour-match to your bike; simply insert your chosen colour into the windows provided!

HERITAGE SERIES

This vintage-styled waxed cotton luggage uses traditional materials and manufacturing techniques to recall a time when people worked and played outdoors, come rain or shine. But hidden beneath the old-world look is a hidden layer of modern technology, to offer a user experience to match today's demanding expectations.

The bags' key material is a dry waxed cotton, a modern take on the traditional sail cloth which found its way into the clothing which sailors wore to protect themselves from the salt water and wet weather. Inside the bags, however, you will find a very modern removable waterproof liner which uses taped seams to guarantee that the contents remain dry, even when the outer material has been drenched. The result is a wholly user-friendly product which does the job whilst looking the part.

STASH & SACKS

Where do you put your motorcycle gear where it won't contaminate your everyday clothing, but doesn't end up getting damp, covered in dust or infested by critters? The answer: store your motorcycle leathers, textiles and gear in a protective, breathable storage bag.

Oxford's Stash & Sack collection is made from durable lined fabric and is universally sized.

IMPORTANT INFO

- Because we ride bikes we understand that motorcycle luggage needs to be adjustable, so that it can be fitted to a wide variety of machines and must be made from durable, weatherproof material. It also needs to offer decent carrying capacity and to look good. We are never complacent and every year we build more features into our design. All this explains why we are today a successful global motorcycle luggage brand.
- OXFORD LIFETIME LUGGAGE is designed by motorcyclists in the UK. We are so confident of its quality and durability that we guarantee it against faulty manufacture or materials for life! The Lifetime Guarantee does not, however, extend to rain covers, buckles and zip tags, which are covered under our usual warranty. Nor does it insure against reasonable wear and tear or failure to properly care for/maintain the product.
- Read the user recommendations carefully before use to enjoy this luggage safely and to its full capacity.
- If you need advice on which bags are best suited to your riding needs, please don't hesitate to call our customer services team on 01993 862 300.

S-SERIES

LUGGAGE

Oxford's new S-Series motorcycle luggage combines tough construction with clean styling and quick-release convenience.

You can enjoy the benefits of both hard and soft luggage with Oxford's latest innovation.

Soft-touch materials are formed into a rigid construction using advanced vac-forming processes. This creates stylish, wipe-clean surfaces and crisp shapes which

complement the lines of the motorcycle, yet you retain the easy-to-live-with qualities of soft bags.

The well-organised storage compartments are easy to access through weather-resistant zips and all bags come with rapid attachment/detachment systems.

T5S Tail Pack - 5 Litre Capacity

FEATURES

- Semi-rigid luggage
- 5kg max load
- Reflective piping detail
- Twin moulded top + base for added strength
- Cargo net for small items
- Slim ergonomic TPR handle
- G-hook tension lock slider strap system for securing under seat
- Weather resistant zip
- Internal zipped mesh net pocket in lid
- Protective cloth storage bag included
- EVA body, 600D polyester fabric base

Height: 13.5cm
Width: 28cm
Depth: 28cm

R-SERIES

LUGGAGE

Oxford's Lifetime Luggage is the jewel in its crown, benefiting from 20 years of passionate development since its launch in 1997.

Most bags look roughly the same from the outside, differentiated only by the styling, number of pockets and a few handy features.

The difference between a good bag and a GREAT bag is what you don't see at first glance; the material composition, construction methods, waterproofing systems, safety mechanisms, tried and tested componentry and built-in real-world usability.

You don't need to know that Oxford's test laboratory has specified, amongst other things: flag-stitched stress points; taped waterproof liners; innovative and over-engineered security straps; tough outer materials to battle the elements; soft touch-point materials to protect your bike; bright interiors for better content visibility; self-healing zippers; comprehensive user guidelines.

You'll carry on not needing to know for years and years... which is why Oxford Lifetime Luggage comes with an unparalleled Lifetime Guarantee.

P60R - P50R Panniers - 60/50 Litre Capacity

"Use the internal dry bags and you'll have all the panniers you'll ever need"
RIDE May 2017 (P60R)

FIRETEX

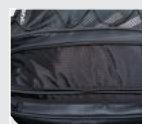

Heat-resistant base

Safety first: robust attachment system

KEY FEATURES

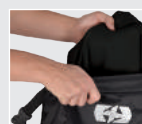

Expandable

External cargo net for wet items

Carry Strap

Removable waterproof liner

TOP TIP: Panniers are great for use with pillion riders

FEATURES

- Heat resistant base in case of momentary contact with the exhaust
- Large top opening and 360 degree opening zips for easy access to contents
- Rubberised side panel helps to protect the paintwork
- Internal net pocket
- 7 Point secure fitting system
- Made from a tough Ripstop Nylon

COLOURS

(P60 black only)

An extremely versatile set of panniers which provide a huge 60/50 litres of storage. Suitable for almost any bike, but perfect for naked bikes, tourers and sports tourers and for those that need a lot of flexibility in their luggage.

Comes with ALL the necessary attachment equipment for a wide variety of bikes.

AQUA

WEATHERPROOF BAGS

Oxford's Aqua bags are one of the easiest ways to get your gear from A to B on a motorcycle, safe and dry. They are made from a tough PVC tarpaulin, which is welded to form waterproof seams. When straps are added to perform essential functions (such as securing the bag onto a motorcycle), Oxford uses innovative construction techniques to further reinforce the bag whilst ensuring complete waterproofing.

The latest generation of Oxford's acclaimed Aqua luggage now offers a choice of five useful tail bag sizes - from commuter 8L through to 'epic voyage' 70-litre versions - plus a range of backpacks and tank bags

COLOUR OPTIONS

RIDE

AQUA-T 50

"The middle sized of Oxford's Aqua packs is great value and arguably the most practical."

Ease of fitting: 4
Loading: 4

Stability: 5
Waterproofing: 5

MCN

AQUA-T 30

"Swallows up your weekend gear...
...It's a great bit of kit."

Tester: Alison Silcox
Time Tested: 700 miles

AQUA ROLL BAGS - 20 - 70 LITRE CAPACITY

- Easy grab carry handle
- Waterproof roll top closure

HERITAGE

PREMIUM MOTORCYCLE LUGGAGE

HERITAGE BAGS - old-world styling, modern usability.

This vintage-styled waxed cotton luggage uses traditional materials and manufacturing techniques to recall a time when people worked and played outdoors, come rain or shine. But hidden beneath the old-world look is a hidden layer of modern technology, to offer a user experience to match today's demanding expectations.

The bags' key material is a dry waxed cotton, a modern take on the traditional sail cloth which found its way into the clothing which sailors wore to protect themselves from the salt water and wet weather. The dry wax application is applied to all outer materials including the straps and has the very real benefit of not coming off on your hands when moving, fitting and using the luggage.

Respectful of the material's heritage, Oxford's designers have employed traditional methods to assemble the bags. For example, pockets are pleated in order to lie flat when empty, but provide space to expand when full; flag stitches secure all the straps and strapping points to the main structure of the bag; the roll top closure is both traditional and the best way to seal the bags against rain.

Inside the bags, however, you will find a very modern removable waterproof liner which uses taped seams to guarantee that the contents remain dry, even when the outer material has been drenched.

Similarly, the luggage employs Oxford's most up-to-date fitting system to ensure that it can be secured to the bike safely, with all necessary fittings supplied.

The result is a wholly user-friendly product which does the job whilst looking the part.

1000s BIKES STOLEN
61% UNSECURED

LOCK IT UP

OXFORD SERIOUS ABOUT REDUCING MOTORCYCLE THEFT.

Motorcycles are fundamentally more vulnerable to theft than most other forms of transport, but they need not be.

The use of a good lock will protect a motorcycle against most forms of attack and reduce the theft rate dramatically.

Incredibly, motorcycle security experts still believe that well over half of all motorcyclists use no form of physical security other than the steering lock, which itself offers very little resistance to a determined attack.

Furthermore, just like an alarm or an immobiliser, the steering lock does not prevent thieves from simply lifting the motorcycle into the back of a van and transporting it to a garage where they can re-mobilise the bike at their leisure.

These figures are supported by recent research carried out by Oxford Products Ltd in the UK's capital London, the UK's worst theft hotspot. A survey of 736 bikes revealed just 287 using locks, meaning that 61% of bikes were unsecured!

If you want to keep your bike, the best advice is simple: Lock it up!

WATCH THE
'HOW TO' VIDEO

/OxfordproductsLtd

The facts about theft

Motorcycle theft remains a huge problem, both in the UK and abroad. Every year thousands of motorcycles are stolen and motorcyclists are disappointed and inconvenienced as a result.

- It takes approximately 12 seconds to steal an unprotected motorcycle
- A motorcycle is stolen on average every 14 minutes
- Approximately 70 motorcycles are stolen every day in the UK
- Less than 14% of stolen motorcycles are recovered
- Theft accounts for one third of insurance claims
- 40% of owners who have their bike pinched give up on bikes

UNBELIEVABLY...

- More than half of all motorcyclists neglect to use any form of motorcycle security!

Advice

According to Police statistics, 50% of bikes are stolen by the opportunist or "Joy-rider". Incredibly, they also estimate that 50% of riders do not lock their machines. Reduce the risk of theft by following these simple steps;

- Buy the best lock you can afford and always use it
- Alarms can be very effective but only really effective when in conjunction with a lock
- If you have a garage, always use it and remember to lock the bike and set the alarm - otherwise cover your bike when outside
- When parking your bike try to avoid using the same parking spot every day and lock your bike to a secure immovable object, such as a ground anchor
- Never leave your lock resting on the ground and always lock it as tight to your bike as possible - this makes it much more difficult for thieves to attack
- Remember to maintain your lock. Keep it free from dirt, and oil moving parts regularly. If your lock stops working, you won't be able to lock your bike

Always secure your bike with the lock positioned off the ground

UK Insurance security approvals Insurance discounts available

Oxford security products are tested to extremes in order to offer the appropriate level of protection.

SOLD SECURE
APPROVED PRODUCTS

Sold Secure is an independent, non-profit making organisation dedicated to reducing the risk of theft by testing security products. The same methods of attack used by criminals on the street are replicated by Sold Secure in the assessment of security products. 10mm Square Link Chain & Padlock

Chains:

These chains offer an excellent combination of strength and convenience. Light enough to take with you but strong enough to give reassurance. Ideal for small to medium motorcycles.

Chains:

- NEW: Upgraded 10mm chain links made from Cro-Mo grade steel
- Cloth sleeve protects paintwork
- Zinc coated to prevent corrosion
- Case hardened chain resists bolt cutters

Padlocks:

- Tough double locking padlock with hardened steel shackle
- Doubles as a disc lock

Also available in orange

5 MINUTE ATTACK TESTED

Our chains are made from hardened Cro-Mo steel, reinforced with Titanium alloy. Long links reduce weight and increase portability.

They can be used with all Oxford ground anchors and U locks. Insurance approved if used with an approved padlock of the same standard.

MINT

CHAIN CLEANER

A POWERFUL FORMULATION which is extremely effective at dissolving and washing away contaminated chain lube and the combination of oil and dirt which has dried on over time. An emulsifying formula allows the product to be washed off after use.

FEATURES

- Easy to use. High power delivery ensures dirt and grime is removed quickly
- Safe to use on chains, swing arms, O, X and Z ring chains
- Regular cleaning of your chain will extend the life of your chain and maintain performance

GREAT FOR...

- Chains
- Sprockets
- O, X, Z rings

500ml

CODE:OC200

BIKE DEGREASER

A ROBUST FORMULATION which is extremely effective at dissolving and washing away grease and oily residues that have dried and set over time. SLOW-EVAPORATING solvents remain on the surface for longer, in order to dissolve more dirt; more effective if allowed to soak for a few minutes before being wiped off. An emulsifying formula allows the product to be washed off after use.

FEATURES

- Mint Degreaser removes built up oil and grease
- Allow moving parts to move freely
- Deep penetrating action

GREAT FOR...

- Engine blocks
- Rear pegs
- Stands

500ml

CODE:OC201

BRAKE CLEANER

SPECIALLY FORMULATED to remove any build-up of brake dust and dirt and leave a decontaminated surface for the perfect functioning of your brakes. Acetone-free and safe on rubber components.

FEATURES

- Mint Brake Cleaner is easy to use, high power delivery removes brake dust and brake fluid
- Rapid working formula leaves the brakes clean in minutes

GREAT FOR...

- Disc brakes
- Brake calipers
- Clutches

500ml

CODE:OC202

BIKE
LUBES

DRY WEATHER LUBE

SPECIALLY FORMULATED with selected oils, PTFE and fewer solvents to generate a high film-forming capability; this works to produce a stronger and more robust film, reducing 'fling' and improving chain protection in dry and dusty conditions. PTFE content fills the gaps between moving parts to reduce dirt ingress.

FEATURES

- Ideal for dry and dusty conditions
- Special formulation with PTFE helps prevent dirt and grime adherence

GREAT FOR...

- Chains
- Sprockets
- O, X, Z rings

500ml

CODE:OC205

WET WEATHER LUBE

SPECIALLY FORMULATED with a high anti-corrosion content and a film forming wax with a resin binder to improve durability and performance in very wet conditions. PTFE content fills the gaps between moving parts to reduce dirt ingress.

FEATURES

- Mint Wet Weather Lube has been developed to deal with the most inclement weather conditions
- Long lasting protection with PTFE

GREAT FOR...

- Chains
- Sprockets
- O, X, Z rings

500ml

CODE:OC206

ALL WEATHER LUBE

SPECIALLY FORMULATED viscous lubricant with corrosion inhibiting additives to create a tenacious film, which extends the maintenance intervals and increases the life of your chain. PTFE content fills the gaps between moving parts to reduce dirt ingress.

FEATURES

- Mint All Weather Lube is ideal for extended journeys
- Special formulation with anti-fling properties
- Long lasting protection and lubrication with PTFE

GREAT FOR...

- Chains
- Sprockets
- O, X, Z rings

500ml

OXFORD RIDERWEAR

SCOOTSTUFF

SILICONE DETAILER

AN INNOVATIVE BLEND of oils which hides minor blemishes on surfaces, reducing the appearance of small cracks and scratches. Quick and easy to apply, it also provides a protective layer to surfaces and reduces the possibility of finger prints and other smudges appearing.

FEATURES

- Easy application
- Reduced friction on moving parts
- Helps reduce cleaning
- Stays looking clean for longer

GREAT FOR...

- Paintwork
- Petrol tanks
- Carbon fibre
- Fairings

500ml

CODE:OC203

GENERAL PROTECTANT

A HIGHLY EFFECTIVE general purpose protectant with strong film forming properties, which create a protective coating to prevent moisture ingress and damage on all types of components. Particularly suitable for overwintering and long term storage to help maintain condition of all components, including moving parts, metal fasteners, rubber seals and electronics.

FEATURES

- Mint Protectant is ideal for repelling moisture
- Enhances protection against dirt and grime
- Light wax coating ensures longevity of protection

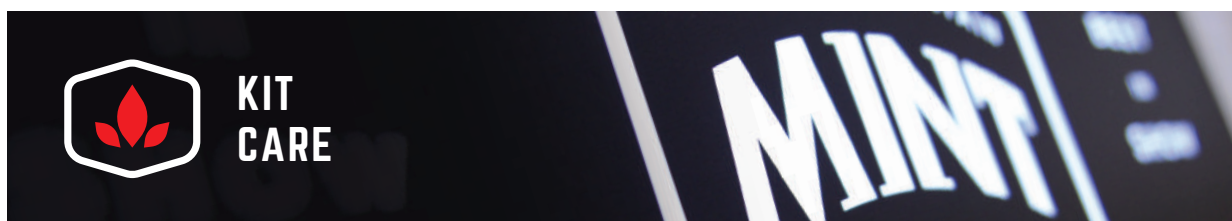

GREAT FOR...

- Springs
- Fork stanchions
- Rust prone areas

500ml

CODE:OC204

HELMET CARE KIT

Everything you need to maintain the cleanliness and functionality of your helmet and visor. Comes with a handy EVA foam pouch for convenient motorcycle storage.

- Helmet Sanitiser (100ml)
- Anti-Fog Spray (50ml)
- Helmet Cleaner (50ml)
- Microfibre cloth
- EVA foam pouch

GREAT FOR...

- On-the-go general helmet care

CODE:OC303

HELMET SANITISER

Formulated specifically to clean and safely sanitise the interior fabric on helmets. It can also be used on boots, gloves and other safety items that are worn for extended periods. REFRESHES AND SANITISES in one operation.

- Easily and gently sanitises helmet liners
- Safe on all materials
- Features a special foaming applicator
- Contains mild, tested biocide
- Can also be used on gloves, shoes and boots

GREAT FOR...

- Internal helmet linings
- Gloves, shoes and boots

200ml

CODE:OC300

ANTI-FOG SPRAY

A specially developed, easy-to-use anti-fog fluid for visors and goggle lenses. This formulation provides a natural STREAK-FREE lustre in seconds, leaving a pleasant, light fragrance with no sticky residues.

- Effective and suitable for most surfaces
- No residual dust or streaks
- Cleans and polishes in one application
- Non-sticky

GREAT FOR...

- Visors
- All shell types

50ml

CODE:OC304

250ml

CODE:OC301

HELMET CLEANER

A unique formulation specifically designed to clean helmets and visors without streaking. When applied with a microfibre cloth this product leaves no residue and a SMEAR-FREE surface even in direct sunlight.

- Removes road dirt, dead insects and greasy residue
- Unique formulation
- Easy application
- Quick drying
- Low hazard formulation, safe on all surfaces

GREAT FOR...

- Ensuring clear vision
- Debugging after a summer ride

50ml

CODE:OC306

250ml

CODE:OC302

WAX REPROOFER

Stain free, silicone free proofer for wax cotton garments. Quickly and conveniently restore your wax jacket's waterproofing.

- Suitable for all colours of waxed cotton
- Easy to use
- Quick top-up application
- PFC free

GREAT FOR...

- Waxed cotton garments

250ml

CODE:OC400

VISORMATE

A unique formulation specifically designed to visors without streaking.

- Pump action bottle
- Cleaning fluid included
- Integrated Sponge
- Integrated visor wipe
- Refillable Bottle

GREAT FOR...

- Visors

50ml

ESSENTIAL ACCESSORIES

ADVANCED ACCESSORIES

OXFORD RIDERWEAR

SCOOTSTUFF

MONDIAL LAMINATE JACKET

"This latest addition to the Oxford range uses a waterproof laminate — where the surface is the waterproof layer — rather than a membrane backing the outer material, so it's no surprise that it remained flawlessly dry. There are good vents and an easily fitted/removed thermal liner — though it's acceptable rather than toasty warm. Fit adjusts well, it's light and comfortable on the bike and well-finished. "But there's no back protector," noted the tester. The elbow and shoulder armour is only CE Level 1, too. That's the only real criticism of a jacket that turns in a top-end performance at a relatively budget price for a laminate." **RIDE**

MONTREAL TEXTILE JACKET

"The Oxford Montreal jacket is a waterproof, breathable, HIPORA membrane jacket, with a rain hood that works under a lid or when off the bike to keep your head dry. It's multi-adjustable for a good fit, has vents for summer use and has a removable liner and CE armour in the shoulders and elbow and a non-CE spine pad. It comes in a range of colours, including Desert, Dayglow and Black." **ADVENTURE BIKE RIDER**

WARMDRY LAYERS

"...the base layer performs excellently in other areas to make it worthy of your consideration. The thick material is luxurious to wear, and it offers ample insulation and the moisture wicking properties are great for a product of this price."

RAINSEAL ALL WEATHER

"Fully lined 2-piece suit. Totally waterproof. Great price!" **RIDE**

"This is a brilliantly priced jacket, best in test. 9/10." **ADVENTURE BIKE RIDER**

Simple yet carefully designed and beautifully made lightweight weather protection. It has been properly upsized too, so if your riding gear is a LARGE, you'll need LARGE Rainseal outer wear - simple!

- Reflective areas • Adjustable cuffs & adjustable Velcro waist • Fully lined • Water resistant seams

AQUA T50 LUGGAGE

"The middle sized of Oxford's Aqua packs is great value and arguably the most practical. It has enough capacity to be useful for a weekend away but not so big as to take over the back of the bike. Completely waterproof, it sits tight on its strapping system, which is quick and easy to use. It's a no-nonsense solution low on any extra features, but it doesn't pretend to be otherwise. The size of the additional Velcro strap makes mounting it on the rack tricky, but the Velcro's a safety device – the strapping power comes from the straps. Like other softer bags on test it can be a minor fiddle to try to load up lots of small items with the bag on the bike. It's easier to load the bag up indoors and then attach it to the bike." **RIDE**

AQUA B25 BACKPACK

"It doesn't state exactly how much capacity the excellent Aqua B25 has, though we'd guess it's 25-litres from its full name! It uses a roll-top opening system, and has a waterproof front pocket. The rear is padded and breathable, while all straps and so on are adjustable. Good quality at a decent price, as ever, from Oxford." **FAST BIKES**

LIFETIME P60R PANNIERS

"The most expensive set of panniers on test, but also the most well-specified. And the largest; despite a claimed capacity of 60 litres- less than several others here- the P60R is the only set that swallowed everything in our packing test. These huge Panniers are easy to fit. Just always use the supplied waterproof liner bags when packing to keep gear dry." **RIDE**

HOTHANDS

These overgrips have been engineered to keep your hands warm in cold weather and can be used over handlebar grips that are fitted to 22MM (7/8") handlebars.

- Easy to fit
- Safe to use
- Very low battery drain
- Quick-fit and removal
- Rain proof switch

PREMIUM PADDOCK STANDS

Their rigid construction makes these stands suitable for the widest possible range of applications - don't compromise your bike.

- Heavy duty steel clamps for maximum rigidity
- Ultra strong frame with a compact construction with 38MM Ø tubular steel frame for ultimate stiffness
- Clean grips included
- High quality double wheels for smooth lift and maximum stability under load
- Front and rear stands available

BIG BLACK PADDOCK STANDS

- Fully adjustable padded swing arm rests
- Robust construction using 32MM/35MM Ø steel tube
- High quality double wheels for smooth lift and maximum stability under load
- Ultra strong frame
- Front and rear stands available
- Ultra strong frame
- Front and rear stands available

STORMEX

"The all-singing, all-dancing Oxford cover is the second most expensive product in the test, but the highest scorer. It has the same features as the Oxford Rainex, but with higher quality materials, a rear visibility panel for the number plate, and pockets to keep the lock and chain off the ground. While the Stormex is a little cumbersome to get on and into place, at least at first - which hits its 'ease of use' score - it offers serious protection against the elements. The material proved water, abrasion and heat resistant, and should last a good few years." **RIDE**

AQUATEX

"Stocked widely by motorcycle dealers all across the country, this is a lightweight, low-priced and highly effective cover that's easy-to put on and take off. It proved to be completely waterproof and heat resistant in our test, with the only reservation being some moisture forming on the inside of the cover, making it cling to the bike when wet. The Aquatex probably won't last a lifetime, but it's convenient to use, will protect your bike and is well priced - hence it being awarded our best buy triangle." **RIDE**

RAINEX

"Oxford's mid-priced offering, with more weight, substance and features than the Aquatex. There's a soft heat-resistant liner, taped seams, and a front window to house a solar battery charger. The fabric proved completely waterproof, but failed the highest heat-resistance test - the iron melting completely through at 200°C. Similar in use and performance to the GT Moto cover, but the Oxford did better in the abrasion test making it our pick of the two." **RIDE**
